

Asset Management Toolkit

Proper PPE Selection and Use

Goals:

at the end of this session you should be able to:

- -determine proper PPE for defined task
- -know where to find appropriate PPE
- -understand hazards and regulations that necessitate PPE
- -understand the mitigations that come before PPE is required
- -know your rights and responsibilities
- -Know employer's rights and responsibilities

What do I need? (handouts, media, other items)

- -PPT of hazards (non-gruesome), options, resources
- -Ability to take notes (e.g. pen/paper, tablet, etc)

Flow: (Notes about the process of the session)

- -OSHA stats
- -OSHA requirements
 - CFR info
 - Specific PPE info
- -Potential hazards
 - -examples...
- -Employer/employee responsibilities & rights
- -Other forms of mitigation
 - (e.g. engineering controls, design)

Notes:

- Have team list all examples
 - Hazards
 - PPE
 - Situations
 - Rights/responsibilities etc.
- Follow up w/ list, data, sources
